Wish there was no secret
I wish I was all a star
I'd be rocking out for you
Sure it would make my life more easier

I just wish I was hannah all the time
My fans will always adore me
I just wish I was hannah all the time
I'm so tired of living a double life
I just wish I was hannah all the time
This will be who I am
I just wish I was hannah all the time
This double life sucks!

(double life sucks)

I just wish I was hannah all the time
My fans will always adore me
I just wish I was hannah all the time
I'm so tired of living a double life
I just wish I was hannah all the time
This will be who I am
I just wish I was hannah all the time
This double life sucks!
