Oh yeah here are the giants now on the field of  
indianapolis to win their  
Number four super bowl after driving down from one  
endzone to the other  
Side with the best memories of the game.

These giants fans got fire up in the four quarter with  
the best passes by  
Manning to manningham so the giants could walk down  
the fifty yard line with  
These giants to win this game so after they rock their  
fans that their hearts  
Will never fades away forever.

Happy tears will always remember these tough giants  
from new york to show the world that they beat any  
team by sticking together as team forever and shall  
fade away from the game of indianapolis after the  
patroits get over the loss because here comes the new  
york giants to vict-ory, vict-ory, vict-ory in the super  
bowl yesterday as they face tommorrow with happines  
around town on the streets of new york.

Everything changes when another minute goes by with  
the giants going down the win to take over the game  
after being four points with the team are sticking  
together like the little giants all over the field when the  
country music began all over the page with the help of  
fans yesterday to always remember them forever.
