How did I get here? I turned around and there you were  
I didn't think twice or rationalize  
'Cause somehow I knew

That there was more than just chemistry  
I mean I knew you were kind of into me  
But I figured it's too good to be true

I said, "Pinch me, where's the catch this time?"  
Can't find a single cloud in the sky  
Help me before I get used to this guy

They say that good things take time  
But really great things happen  
In the blink of an eye

Thought the chances to meet somebody  
Like you were a million to one  
I cannot believe it, you're one in a million

All this time I was looking for love  
Tryna make things work that weren't good enough  
Till I thought I'm through, said, "I'm done?"  
And stumbled into the arms of the one

You're making me laugh about the silliest stuff  
Say that I'm your diamond in the rough  
When I'm mad at you, you come with your velvet touch

Can't believe that I'm so lucky  
I have never felt so happy  
Every time I see that sparkle in your eyes

They say that good things take time  
But really great things happen  
In the blink of an eye

Thought the chances to meet somebody  
Like you were a million to one  
I cannot believe it, you're one in a million

All this time I was looking for love

Tryna make things work that weren't good enough  
Till I thought I'm through, said, "I'm done?"  
And stumbled into the arms of the one

I said, "Pinch me, where's the catch this time?"  
Can't find a single cloud in the sky  
Help me before I get used to this guy

They say that good things take time  
But really great things happen  
In the blink of an eye

Thought the chances to meet somebody  
Like you were a million to one  
I cannot believe it, yeah yeah

They say that good things take time  
But really great things happen  
In the blink of an eye

Thought the chances to meet somebody  
Like you were a million to one  
I cannot believe it, you're one in a million, yeah

One in a million, yeah  
You're one in a million
