"Underground"

I was livin in a sad time at home
I was hopin people would just leave me alone
I dont understand why everyone cares so much
They are all back in forth in a rush

(CHORUS) Why can't I stay underground?
(underground)
That way when they keep lookin I'll never be found
Why can't they just go away?
They keep comin by everyday
Why can't I stay underground? (underground)

I hope no one can find me in this empty place
But trust me, somehow they will find a way

They keep taking things I say
and twisting them to go the wrong way

(CHORUS)

leave me alone
leave me alone
leave me alone
just wanna be.....
UNDERGROUND!!!
