"Meant To Be Together"

You can make a difference,
if you have a choice,
if you only like to listen,
you won't need a voice...
I wish there was another place where you and me were
meant to be,
I wish there was another place where you and me were
meant to be,
we were meant to be together.
When you feel all lonely,
you got nowhere to go,
you just have to call me,
and you won't feel alone...
I wish there was another place where you and me were
meant to be,
I wish there was another place where you and me were
meant to be,
we were meant to be together.
