it's so lovely when its sunny...

(chorus:)

let the sun shine
let the sun shine yeah
the sun is shining
the sun is shining

i've been waiting for a sunny day
temp went high, makes some hail
the day looks good, I see the weather's fine
the grass is high & the sun might shine

the weather to get together
I don't know rather
I should feel your touch

the weather to get together
I don't know rather
the grass is high enough

(chorus:)

Its so lovely on a sunny day
Toll looks high, come in and play
The grass looks greener over the vens
There's nothing like, its furious

the weather to get together
I don't know rather
I should move so fast

the weather to get together
I don't know rather
Your snaking the grass... (piew)

(chorus:5x)
