Tongue chewed off and head in books
Lately I've been taken ill, all we do is drive, that's cool
But I need her around, so I'll just wait and see
Soon she'll be home, baby's coming home

She's all I need, she's wired into me
Hey, don't you think I know it's unhealthy, it's no big deal
Sooner or later you heal or you die, oh, my sweet love
My beautiful disease, the bullet to my knees
It's her and her alone I adore

All I've said and things I've done, hate, I drew into your eyes
Everything is gone so young, you don't need me around
No one else can lift this head, this soul
Baby come on home

She's all I need, she's wired into me
Hey don't you think I know it's unhealthy, it's no big deal
Sooner or later you heal or you die, oh my sweet love
My beautiful disease, the bullet to my knees
It's her and her alone I adore
