

Cooper Temple Clause "Our Eyes Are Bright"

Visit "[Our Eyes Are Bright](#)" on MotoLyrics.com

We draw up maps
So we can slip away
Wrapped up in coats
Our whispering friends
So throw all your knives
Before it gets too late
Blacken the greys
We'll be okay

This must be our fire
These must be our stars
Tell us what's wrong
Don't know who you are
So sharpen your hands
And we can stand just there
Focus up gently
We won't even care

Our eyes are bright and we curl caffeine for sparks
We get in trouble if we stay up after dark
So we fall down
But we'd fall down anyway
Hide in your hallways and make up tracks in parts
We get in trouble if we stay up after dark
So we fall down
But we'd fall down anyway

So turn up the dark
We can close our eyes
Dream twinkles and fumes and industry
And we
We can just
Breathe in (stop breathing)(stop breathing)
Just breathe
Just breathe in
Breathe in breathe in breathe in... (breathe in for me
Now)
