When i have to puke at night  
i can be so indiscreet  
i don't run down to the john  
i just throw up on my sheets  
i puke on my pillow and i puke on my floor  
smells so bad it makes me puke some more  
i'm lying in puke six inches deep  
so i just smile and go back to sleep  
oh  
how i love to sleep in vomit  
you don't know the joy i get from it  
waking up to the smell of puke  
makes me shout 'i love you'  
when i wake up it's almost noon  
that rotten smell burst through my room  
i take a whif it smells ok  
so i rise to greet the brand new day  
oh  
how i love to sleep in vomit  
you don't know the joy i get from it  
waking up to the smell of puke  
makes me shout i love you  
when i have to puke at night  
i can be so indiscreet  
i don't run down to the john  
i just throw up on my sheets..... (repeated)
