"Holy Fall"

brace myself
space myself
throw myself from the window
throw myself from an aerial view
of the highest
a holy fall
it was a holy fall...

-Holy fall
it was a holy fall that brought me here
holy fall
it was a holy fall that brought me-

wrinkled old doll face
on her way to the ball
i've got only myself

to thank for it all
i can picture you almost brushin up against me
ican picture you almost touchin me
and it's not dark at all
it's not dark at all in here

-chorus-
yea, it brought me to this place
into this gorgeous time
