She's gonna go over to him
Say that it's over with him
She knows that their love will never win
Say that it's over with him

She knows herself better than any man could
When she's under his pressure she's not feeling
misunderstood
Such strange behavior
From a man who is better than good
Will he still love her
If she wants to love him different way than he wants?

She's gonna go over to him
Say that it's over with him
She knows that their love will never win
Say that it's over with him

She knows herself better than any man could
When she's under his pressue she's not feeling
misunderstood
Such strange behavior
From a man who is better than good
Will he still love her
If she wants to love him different way than he wants?

She knows he loves her

She can't love him like he wants her to love him
She can't love him like he wants her to love him
To love him
To love
To love
