

## Millennium "The Island"

Visit "[The Island](#)" on [MotoLyrics.com](https://MotoLyrics.com)

The Island is calling  
The Island is my land  
And it could be your land too if you weren't so scared  
to go there  
You've been told you can't  
So if that's what you want to believe you'll go nowhere  
The Island is your land  
The Island is giving us the word  
It's saying you've got to let me out of this little cage  
that we live in  
It's time to free yourself  
And start to live instead of thinking of dying  
The Island is calling - it's calling  
And it's there inside of you  
The Island, the Island, the Island  
Is surrounded by a sea of you  
And if this song sounds crazy  
It's because you really are --- the Island  
The Island, the Island, The Island  
Is calling  
The Island, The Island, The Island  
The Island
