I used to think the better way was to get away

Chasing sunshine tryna put the leather away

When your wheel of fortune is just a letter away

And the chick you been with, you tryna let her away

For that Vanna White chick

Load the tall van with white chicks

Hit the hotel

Hit the light switch

While I was out tryna spend a night with

I was the one she was tryna spend her life with

I could've sworn the money wouldn't change my motto

But why want a little when you can have a lotto

Why sip the glass when you can have the bottle

We live for the now but what about tomorrow?

CHORUS

I got sunshine on my face but I'm not happy

(I am so senseless I lost all senses I'm telling you that)

I'm not happy I got my eyes so closed so I can see you

(I got nothing)

If I don't have you

2ND VERSE

Blinded by the fame I can hardly see her face  
She blinded by the love she can hardly see mistakes  
But there were mistakes which we can't replace  
But visualize the place maybe you can relate  
For her I give my arm hoping she amputates  
But still it aint enough  
It's way to late but I'm like wait  
She like she did she said she tired of waiting  
It's already been years and there's been tears she'd  
I was gone til November than I show on that lear jet  
Like yeah I'm rich man I really don't care  
Throw a little money in the air  
Blinded by the cars I was blinded by the ice  
Millionaire lens I was blinded by the light  
One look at her face and I was remind by the life  
That I used to live that she used to light

#### CHORUS

I got sunshine on my face but I'm not happy  
(I am so senseless I lost all senses I'm telling you that)  
I'm not happy here but I got my eye so closed so I can  
see you

(I got nothing)

If I don't have you

#### 3RD VERSE

All we do is argue

All we do is fight

I'm just tryin to get it back to which shit is too fice

But it will never be that she said

And you can never be that prepared as long as your  
aware

She don't know how to stop the hurt

So for now I'm just a tear

And since I was a jerk she wish I would disappear

But that's what got us here and that's what's gotta go

You reap what you sew

So ima let her know

CHORUS

(I am so senseless I lost all senses I'm telling you that)

I'm not happy here

But I got my eyes so clear so I can see you

(I got nothing)

If I don't have you

If I don't have you

(I am so senseless I lost all senses I'm telling you that)

If I don't have you

If I don't have you

(I got nothing)

If I don't have you
