Mims

And she say she love me, love me long time
And she say she like the way me spit rhymes
Baby girl is sexy and she's so fine
I just want to taste her butt like wine

She let me do my thang (ah)(x4)

And she say she love me, love me long time
And she say she like the way me spit rhymes
Baby girl is sexy and she's so fine
I just want to taste her butt like wine

She let me do my thang

Let her do her thang
But only for the night
So she better not complain
It's the EA Sports girl
You know it's in the game
And yeah I got the charm
So don't worry about the chain

That's why she say she love me, love me long time
You mad at your girl because she's all mine
Pulled up to the club then I pull her offline
She said I was the best she had in a long time

She let me do my thang
She was with me on the rang
While I was busy and I hit her with the stang
She called me Pacman, I ain't talkin' Bruce Wayne
Cause when I'm at bat I don't need two swangs
I only need one and that bitch's out the pub
She left the lights on did it without the duh
But homie hold on I could leave out the part
All that and we didn't need to get out the car

(Yeah!) And she say she love me, love me long time

(long time)
And she say she like the way me spit rhymes (spit rhymes)
Baby girl is sexy and she's so fine (uh)
I just want to taste her body like wine (what?!)

She let me do my thang (hey x6)
She let me do my thang (hey x3)
Go!

And she say she love me, love me long time (long time)
And she say she like the way me spit rhymes (spit rhymes)
Baby girl is sexy and she's so fine (uh)
I just want to taste her body like wine (woo!)

She let me do my thang
She let me do my thang
She like the way I talk
She like the way I sang
She even like my slang
The way I say 'money'
She say I talk funny, I talk real country
Yeahhh

Say she love me, love me long time (yeahhh)
And she say she like the way me spit rhymes (ey spit rhymes ey)
Baby girl is sexy and she's so fine (uh)
I just want to taste her body like wine (what?)

She let me do my thang (hey x6)
She let me do my thang (hey x3)
Go!

And she say she love me, love me long time (long time)
And she say she like the way me spit rhymes (spit rhymes)
Baby girl is sexy and she so fine (uh)
I just want to taste her body like wine (let's go!)

She let me do my thang
