Am I sleeping with my eyes white  
Am I alone  
Am I staring into bright lights  
Have I gone home  
I must be dreaming when I'm sitting here  
With someone else's clothes  
Am I sleeping with my eyes white  
Won't you let me know

Will I wake to find you waiting by my bedside  
Will I wake to find you waiting by my side  
Will I wake to find you waiting by my bedside  
Will I wake to find you waiting by my side

Ooooo...

Am I sleeping with my eyes white  
Am I alone  
Am I following the lines on  
The faces that are shown  
I wanna see your hair line and cheek bones, your red  
lips, your cell phone  
Would you let me know

Will I wake to find you waiting by my bedside  
Will I wake to find you waiting by my side  
Will I wake to find you waiting by my bedside  
Will I wake to find you waiting by my side

Ooooo...

Will I wake to find you waiting by my bedside  
Will I wake to find you waiting by my side  
Will I wake to find you waiting by my bedside  
Will I wake to find you waiting by my side

Ooooo...

Ahhh...
