Welcome to the massacre  
cuttin' heads make a scream queen cream  
break a switch of the world tree  
crushin' souls makes a man outta me  
Lynch mobs and death squads  
Rock to the rhythm of that copycat sound

Die blut Das boot  
Die blut ist lieben Das boot ist tod

Shit out from the bowels of god  
a collage of mad genius  
Captain gigas paces  
his eye towards hunab ku  
this is our goal and we shall die  
whether we reach it or not  
so lets show those pig fucks what it's like

crew of the azreal this is the union police  
this message is your warning shot  
you have tencseconds to comply if not you die!

Light those fuckers up I wanna watch 'em burn  
no cops are gonna stop us I wanna see 'em die  
Remember our mission is to murder god  
So no matter who dies  
we all will soon

Wave after wave of union police  
met a bitter end at the hands of azreal  
now the most efficient weapon ever devised  
sets sail for hunab ku
