Lost somewhere in the cursed arids
At the crossroad of Haunted dimensions
Abandoned fortress tower above as stone monolith,
Lonely rampart of divine interventions

Lo, hidden in dissolved labyrinths
Lo, where spirits are walking through many rooms
Vainly searching for eternal peace
You're enthroned by the Ancient Moon.

In thy arms the power of Pagan Gods
Power to extinguish sun and burn stars
In your enchanting smile laugh of a nymph
In your serpent eyes doom of human lurks

Apocalypsis of dreams is
In your inexorable words
In your cold crystaled heart
Abyss for the many souls

Onyx crown upon your head made by Astaroth
Servants stand beyond your back-the Devil and the
God
Gifted by Venus, Thou sets control upon the lust and
love
And Niggurath, the punisher of all lives,
Is only other step for your rebirth.

Ensorcered by chaos
Goddess of the Underworld
Creature of my faerytales
Inbreeding of my thoughts.
