"Live In Sodom"

When cold lava become alive
Had pushed out from the bowels of Earth
Swarm of unforgiven wraths

When salt waters move aside
Bearing the new great whore of the world
This will be a sign for Humankind:
Aghast! New Sodom arise!

From the deep of cursed ocean
Grey mist move up
Bringing odour of primal sins
Sodom in your head! Sodom in your mind!

Sodom control hands with swords
Let's begin carnage in the name of God
Tear off civilian mask you so long worn
Nude primeval instincts in abyss of your soul

And you already beast
Lead by prevail willingness to kill
And propagate
Breaking all boundaries from the ancient times
Perveranced natured strive outside

All world became a part Sodom
All cities become streets we'll walk along
On every wall neon posters with our names
Show you: "There will be soon Armageddon!"
Sodom! Sodom in your minds!
