Daybreak. Angels are blazing the dawn of new day
The sun in golden chariot race up to heaven
But you can't see it, as morbid slave
You pull down your days, counting it to end
...With gloom you drops seldom looks in skies...

Eternal horror put in chains your mind
That horror makes you await for death
That horror makes you fight
For what? For whom? It doesn't matter...

* * *

In chaos of many lies thou try to find
The path to true
But doesn't know, you'd buried your true
Under the monoliths of useless manuscripts

As shameful maiden
Sun hide in darkness of the moon
And wicked light already fled in horror
Engaged by the shadow goul

Thunder rip heaven asunder
In flicked lightnings if you can behold
The great battle of two titans
In which your dye was cast

As Selene drops shadow on the Earth
The King of Horror throws blindness
Upon your mind
As primitive man, aghast, you'll fall to ground
Behind the face of Great Enigma...

The magic equinox has been set
And heaven opens Deus revelation.

* * *

And then you'll realize, you already dead,
Although you always afraid to die.
You're already in hell,

Althrough you always afraid to fall there

Donation were vain-
God laugh upon you
Wind throwing your remains
Sun eclipse had gone,
But mind eclipse has come.

...And when angels blaze arise of new sun
Nobody can see it...
