Banners on the wind -
Devices of glorious God
Greatest armies I lead
Await for my order to conquer the world

Beyond the curtains of night
They cannot see my face
Beyond the stone mask of Might
They cannot read my thoughts

But I'm following you
And whisper of my lips
You can hear as the blowing of wind:

"So many years hath flowed since I was exiled
So many worlds I passed searching for the shelter

While I had found this strange dimension
From pain and love, from tears and blood
From all my Deus hate I built this world

And pearls of stars I threw in deep of night
And planets, inbreedings of my mind
Creatures of my game

The birth of day I made and burial of night
And many secrets I've revealed
The essence of the Death and Life

In many incarnation I've been
In grave as rotten flesh I laid
In beastful passion of two lovers' bodies I burned
In steam I rose, in rain I fallen

But ultimately I made Thee
The black gate to my darkest nature
The storage of my grim
That noone mortal eyes can see

These, who I named the Earth
Last incarnation,
The incarnation of my sorrow

And sons and daughters you born.

I am you, you are me
And I am them..."
