[Music & words: Saikkonen]

I am afraid of you, you think  
I never look into your eyes  
I wish I'd see you disappear

Why don't you leave me  
Alone with my harmless life  
I wish I'd see you disappear

Go away, Go away

Don't want you to explain  
I wouldn't understand

I just wanted to enjoy  
My little promenade alone  
Nothing could turn me down today

Is there any life  
Left behind that empty stare  
Something has taken you over
