Yeah!  
Wow!  
My scope of the stars  
Men are from Jupiter  
Women from Mars

I know why  
I know how to say my goodbye  
I seat for two  
Has become so few  
That's why I'm waiting for you  
That's why I'm waiting for you, Wow

My 'scription of my specs  
Through the crowd I see'n who's next

I know why  
I know how to say my goodbye  
I seat for two  
Has become so few  
That's why I'm waiting for you  
That's why I'm waiting for you, Wow

I know how to say my please  
People hanging from the cherry trees  
I use my voice  
So I have joy  
Let my rejoice

I've been waiting for you  
That's why I'm waiting for you  
You, you above the others  
Above the other, you  
You, you, you you!

You you you  
You you you
