Intro:  
Dreams...  
Fade... covered in dust.

[Verse:]  
No warning came  
A sudden strike  
Death from underground!  
Mystic vows  
Could not stand  
An overwhelming fate awaits now...

[Pre-Chorus:]  
The nature's calm is raging  
Oh God! Our world is shaking!

[Chorus:]  
Crying!  
Don't let the search to be over  
Earth screams  
Thousands of lives  
Were buried tonight  
Don't give in  
Help us now!

[Verse:]  
Ruins  
Unfold a slaughter  
Mothers, fathers  
Sons and daughters  
Gone the light  
Limbs get colder  
The bleeding soil  
Bites it's lips!

[Pre-Chorus:]  
The greatest horror is breaking  
In a nightmare of stone and dust  
Still we pray

[Chorus:]

Crying!  
Don't let the search to be over  
Earth screams  
Thousands of dreams  
Were buried tonight  
Don't give in  
Help us now!  
Stone by stone  
Brick by brick  
Bone by bone  
We shall rise again...

Don't let the search be over  
Thousands lives  
Were buried tonight

[Chorus:]  
Don't let the search to be over  
Earth screams  
Thousands of dreams  
Won't fade this way  
I know, we will  
Rise again!  
We shall rise  
We shall rise  
We shall rise again!
