The light became my only friend  
I tried to hide my thoughts, the images I see  
I must be mad? I'm loosing it?  
Give me room  
Space to stretch my wings  
Should I consider this a gift?  
I'm able to see life in my own fantasy  
Am I predicting the future?  
I hope not  
Everything's so clear

I had to let you know  
Can you live with this man?  
Still have allot to learn  
Will you give me a hand?  
Seems like I've always lived in fear  
Do you know the reason?  
Got to know the reason  
Why we're all here

It took two lives to discover  
The corridors painted blue in my mind  
I slaved two lives just to reach you  
Embrace Mrs. clairvoyance  
She opens your eyes

Come join my life I don't need eyes  
People, they speak their hearts, but never honestly  
You self-destruct, how can this be?  
Headless dolls, is everything I see

I had to let you know...

It takes two lives to discover...

As you start to lose control  
Of your body, mind and soul  
Don't deny this special gift  
And a New World will begin  
I don't feel your pain  
Don't mind the world's insane  
Under this tree with my ancestors

It took two lives to discover...
