You terrorise my mind, you're so unkind
You fuck with me inside, you terrify
I have no will to live, with you around
Go fuck with someone else, and drag them down

I see nothing wrong, in my perfect life
Take me as I am
Take it while you can

Come, step inside this room, it welcomes fools
Time for you to choose or disapprove
Blind by you're sick idea, of how it is
I don't need that here, so disappear

I see nothing wrong, it's a perfect life
Take it while you can
Introduce yourself!

I see nothing wrong, in my perfect life
Take me as I am
Take it while you can

I see nothing wrong, it's a perfect life
Take it while you can
Introduce yourself!
