Whiskey bottle, wash your fears away
I'm so sure they'll return again
Talk is cheap, why not try to explain?
Just what's wrong maybe I could help

If like me, you need escape
Just one chance to prove yourself
Just to be someone
Just to mean something somewhere

Push yourself down a deeper hole
Take my hand we could stop it all
Drag your dreams to another place
Introduce them to life my friend

If like me, you need escape
Just one chance to prove yourself
Just to be someone
Just to mean something somewhere

If like me, you need escape
Just one chance to prove yourself
Just to be someone
Just to mean something somewhere
