Waitin', I'm not waitin' for you  
I no longer care  
Spit the taste from my mouth  
Won't look back again  
I need only one thing, one thing left to take  
Pushin' it completely off the edge again

Feel it inside of me

Watin', I'm not wastin' this life  
When this is all I have  
Grab what I believe in  
Let go of the past  
I have only one thing left to justify  
Free myself from weakness  
Brand new state of mind

Feel it, inside again, fallin'  
We could begin, feel it  
Inside again

Feel it inside:

Feel it, inside again, fallin'  
We could begin, feel it  
Inside again

We could begin, feel it  
We could begin, fallin'  
We could begin, feel it  
Inside again

Waitin', I'm not waitin' for you
