Visit "[Words](#)" on MotoLyrics.com

Show me the one thing I always wanted
Unwilling sacrifice
Deeper your reason, less than I'm feeling
Towards you this time

If only you could see my way
If only words could heal my friend

Understand one thing I've never wanted
You to change my life
Circumstances may take advantage
Over you tonight

If only you could see my way
If only words could heal, my friend

If only you could see my way
If only words could heal, my friend

If only words could heal, my friend
If only words could heal again
