Go, try to go there
Door to door in a loop
Nobody found in their eye

Hidden scenes
Flooded dreams
Caring less

Please let me rust in a way I know
Wild it will be now soon
Let it rot and let be with no sun

Chorus
Coming,
Does it all fit to me?
Is it over?
Growing in this town
Does it hold any mean?
Is it over?
Leaving me a step behind

Rolling and rolling
Lost in the sense of truth
Blind between dead and alive

Motorized
Blinded sight
Aiming less

Please let me rust in a way I know
Wild it will be now soon
Let it rot and let be with no sun

Chorus
Coming,

Does it all fit to me?
Is it over?
Growing in this town
Does it hold any meaning?
Is it over?
Leaving me behind

Hide
Burns now to know
I got to get out

Give away your life
Give away your God
Give away, I demand to me

Give away your life,
Give away your God

Throw them away!

Give away your life
Give away your God
Give away, I demand to me

Give away your life,
Give away your God

Throw them away!

Chorus
Coming,
Does it all fit to me?
Is it over?
Growing in this town
Does it hold any meaning?
Is it over?
Down, forever low.
