This feeling of ecstasy deforms my soul  
Slowly decaying mentally blood flow pain  
This crying sleep confides all these images of hate  
This feeling of ecstasy, deforms my soul  
Flight, deprive, life, reject  
Flight, deprive, life, reject  
Sorrow consumed soul, lifeless empty form  
Azrael bring me, quietus peacefully  
Crushing the pride falling, falling, falling to my final  
destiny

Flight, deprive, life, reject  
Flight, deprive, life, reject  
As the flowers cry my elan perishes away...away  
I pray for no life, my path unwinds  
Quickly now tomorrow I no longer live  
Memories of cries, memories unwind  
Suffer me, why did it have to be  
To overcome our being to live life to it's pure  
You can, you will, you'll see the wonders  
The wonders complete...
