you fall
i end up in the middle
you call
i end up losin' sleep
i need this
in case i derail one day
i need this
in case i derail one day
until the weather clears
we'll remain divided
you stall
i end up losin' time
you crawl
i end up on my knees

i need this in case i derail one day
i need this in case i derail one day
until the weather clears
we'll remain divided
i need this in case i derail one day
i need this in case i derail one day
like i need this
until the weather clears
we'll remain divided
