flies on my face  
don't have the strength to make them stay  
my head's explodin'  
feels like the brakes are givin'  
i know that i said forever  
i didn't mean forever  
i'm sorry, i blew it

cold fingertips  
don't have the touch they used to  
a knife for your heart  
it's time for everything to come around

i know that i said forever

i didn't mean forever  
i'm sorry, i blew it  
i'm so sorry, i apologize

flies on my face  
don't have the strength to make them stay  
my head's explodin'  
it's time for everything to come around

i know that i said forever  
i didn't mean forever  
i'm sorry, i blew it

i'm so sorry, i apologize
