You don't come around no more  
And our friends have been asking  
Is something wrong  
Did you just need a change?

I know your kind  
Get caught up in a daydream  
But all your money's gone  
And the buzz is wearing off

I will not let you down  
Call on me if you feel stranded  
I will not let you down  
I'll give you time and understanding

To lose someone is a pain like no other  
You'll go over it and over it  
But it all comes out the same

Heartbreak is slow  
And it hits you when you're lonesome  
I don't see you no more  
Are you still hanging on?

I will not let you down  
Call on me if you feel stranded  
I will not let you down  
I'll give you time and understanding

Now whenever we talk  
I feel like some thing's missing  
You lie and tell me you're well  
But the sentiment's uplifting  
Faraway friend

I will not let you down  
Call on me if you feel stranded  
I will not let you down  
I'll give you time and understanding
