First we learn how to care  
Magical dreams, midnight summer air  
Wouldn't it be nice to find that some... warm... to share  
What I care  
Maybe someone to love for a lifetime

Oooh, I have love supreme  
Mystical movements making me flow free  
Slippin' in between the stars we find that shine all the  
time  
Now they're yours  
Now they're mine  
Now there's someone to love for a life time

Ohh, can you feel what I'm saying  
Touching you... touching... touching me  
Can you feel what I'm saying  
Touching you... touching... touching me
