(m. riperton - r. rudolph - m. henderson)

Hey there everybody, out there gettin down  
Steppin with the fashions, throwin love around  
You're hustlin for money, you playin' the big man's  
game  
Going around in circles, you don't know where  
Ah, you're smilin' through the pain

Oh, such a strange affair  
Don't it blow your mind, mon cher  
I ain't lyin', anything goes  
You got to keep on tryin'  
Everybody knows we got to turn it around

Cost of livin' risin'  
Unemployment grows (I ain't got no job)  
Wastin' our resources  
Who's makes all the dough? (everybody but the po')  
Politicians preachin  
While color watchers are freakin'  
Children needin' teachin'  
While for the stars we're reachin'

Oh, such a strange affair  
Don't it blow your mind, mon cher  
I can't stand it, it don't need to be that way  
I don't want it  
Yeah, there's got to be a change  
We got to turn it around
