Then you said something
of importance
and it had impact on my life

it was something beautiful,
it was something thorough
and now I just don't understand

whyyyyyyy..
I don't remember
(Why can't I recall?)
whyyyyyyy..
I can't recall..
(Why can't I recall?)

you're like an ambush
you're kicking it in
when I'm not in control
it's kinda like spitting
without looking
you're almost sure to miss someone

and I~~~~
don't remember
(Why can't I recall?)
whyyyyyyy..
can't recall..?
(Why can't I recall?)

and I came to understand
that when I'm with you
I'm a better man
then I came to understand
that when I'm with you
I'm a better man
