"What You Do To Me"

Visit "[What You Do To Me](#)" on MotoLyrics.com

It's what you do to me
And how it makes me feel
It's how you look when there's nothing to say
You say it, 'coz you never thought you would

It's how you turn me 'round
And how you make it sound
It's how you talk when there's people around
May you never find that urge to put me down

It's what you hide away
Things you never cared to say
You think I'm strong, and don't get me wrong
But I'm nothing, nothing on my own

So now you wanna be mine
You just don't want to all the time
Here's the deal,
You've gotta want me for real,
'Coz time is such a selfish thing to keep

It's what you do to me
And how it makes me feel
It's how you look when there's nothing to say
Then you say it, and you never thought you would
