This is how it goes
Me and you on the telephone
This is how we sound, this is how we grow
This is what I do
If I had to choose again, this is what I'd choose
I wish I didn't know what it does to you

If I can break your fall,
Then we should rise above it all
If you loose control
You're sure to turn me on

This is what it takes
This is how I feel good about myself
This is how I fall, this is how i break
Baby lets not fight
Why don't you come over and spend the night
Cause we don't need more time
We need to use it right

If you can't get high
If time's just flying by
If you live a lie
You ought to say goodbye

Hey!
I wish you'd hold that smile
Hell!
If only for a while
I need to know bout all the things you did and didn't do
And just how hard you try
If I can break your fall,
Then we should rise above it all
If you loose control
You're sure to turn me on
