Stokley Williams, Keri Lewis)
Baby girl, I wanna tell you real quick
I'm not your average kind of brother tryin' to be slick
I want something real
Something my heart can feel
But you told me that your heart again you'll never
reveal

Chorus:

Let me change your mind, change your mind
Change your mind, 'cause I'm qualified
Let me change your mind, change your mind
Change your mind, 'cause I'm qualified

Baby girl, are ready for this?
Let me lay this lovin' on you like a whip
Don't you know, I wanna be in your midst
Wanna be the jam you pick all night--your favorite hit

(Chorus
