Intro: Boy let's sing this sucka

Verse:

A joy to see you

I'm so glad I'm here

I come as a true friend

So feel comfortable

Relax your fears

You've got no one

And you know I've got nobody too

Never been so much in tune

With anyone in my life

We just took our time

To settle and unwind

We innocently vibed

Our hearts intensified

Until

Chorus:

Silently

Soulfully

You've become a part of me

Joyfully

Melodically

You and me in harmony

Verse:

Did not expect to get a lover

From a real friend

You are so warm to me

When I'm around

I melt like margarine

Oh girl you thrill me

Oh with your world

Please feel me

Oh lady you excited me

Oh won't you please invite me

We just took our time

To settle and unwind

We innocently vibed

Our hearts intensified

Until

Chorus

2x

Bridge:

You sang (a melody)

Naturally I ring (a harmony)

Cause lady I feel the real thang

Can we be the main thang

Honey I wanna be your one man band

Your piano man

May I tinkle your grand

Ooohhh-ohhhh
