Verse 1:

We were really in love before

That's when our hearts soared  
Faster than we had ever imagined  
This time we'll take it slow

We'll let our love grow

And I know

We'll make it happen, my baby  
Bridge:

Your supernatural  
Kinda unbelievable  
That here we are together again

Chorus:

Never thought that  
We would be together  
Here we go again  
(Here we go again, no)  
If we hold on

Love will last forever

Here we go again

Here we go again

Verse 2:

Friends for so long with me  
You know you are all right (All right)

Oh baby  
You read my mind and said,  
"Let's make sweet love tonight" (Tonight, Tonight)  
And I'm gonna do it

Take you on a trip

Aboard a special ship

Called the Escapade of Love (love-love)

Your love gives me a lift

Because you've got that gift

All I want to do is compliment

Because because you turn me on

Bridge

Chorus

Here we go again( no, no) - Repeat 4 times

Bridge

Chorus Adlib until end of song
