Ricky Kinchen, Stokely Williams, James "Popeye" Greer)

Verse 1:

She arrived at my job  
In her white new Celica  
Looking rather nice  
I wonder what kind of guy does she like  
(Yeah, She probably likes nerds)  
She's probably the type that likes guys with suits  
But if she got to know me, we could get loose  
She probably thinks  
I'm a bum that works at a car wash  
But if she got to know me,  
I would be tops

Chorus:

I wonder if she likes me  
I wonder if she cares about me  
I wonder if she'll marry for free  
I wonder if she wants to be with me

Verse2:

I must find out  
And see what this fine girl is all about  
So I wonder  
What should I say  
Cause if I say the wrong thing  
I could blow it right away  
So how about,  
"Dinner and candlelight"  
She said, "No, not tonight, It just wouldn't be right"  
I don't know why you are playing games  
Cause you know I know what's on your mind,  
Cause when you come to my job  
You'll be staring at me all the time

(Chorus)

Bridge1:

I wonder, does she know  
That I'm in love with her  
And I won't think twice to leave my wife  
Please, girl be with me tonight  
You and me in love, girl, would be so nice

(Guitar Solo)

Bridge2:

She's a little rich girl  
That has lots of cash  
So what does she think?  
A man like me is too low class  
If she only knew  
The kind of future we could possibly have  
It would make her turn around  
And come to me so damned fast

(Ad Lib on Chorus)

End:

She's got the means  
She's got the time  
She's got the cash  
She's got the ride  
She's got the means  
She's got the time  
She's got the cash  
She's got the ride  
(Ad Lib to End)
