"My Dear"

Baby come closer
You don't have to be afraid
I'll be like the gentle evenin' rain on your window pane
Lay your head down
Enjoy the candlelight
Come and take a trip with me
If you'll let yourself be free you'll fly away
To a place where the touch equals ecstasy
Stay with me tonight
Will you find your way, will you find your way with me
Chorus
My Dear
I don't wanna be the one
Don't wanna be the one to hurt you
My dear
I just wanna be the one
Just wanna be the one to love you
Honey, you feel so so good
You skins as soft as virgin silk
I melt each time I get a whiff of your sweet perfume
Lay me down, let's enjoy the candlelight
No need for us to fantasize
Don't hold you feelings deep inside just sail away
To a place where the touch equals ecstasy
Stay with me tonight
Will you find your way, will you find your way with me

Chorus
