O'Dell, Stokley, James Greer)

Verse:

I spotted that smile across your face  
From across the room  
My memory can't erase  
My heart exceeded it's normal pace  
As oxygen takes a violent haste from my face

Bridge:

Time and time again  
It's agreed that we are friends  
Then I awake  
Awake from my daydreams  
Sleeping all the time  
There was something on my mind  
Listen to my heart beats begin

Chorus:

If you're single to mingle  
I'd love if we could do the town  
There's a love that could be found  
If your single to mingle  
I'd love if we could do the town  
There's a love that could be found

Verse:

When I lay me down to sleep  
I close my eyes and all I see is you  
Happy thoughts of us in a deep romance  
You and dancing close with our eyes in a trance

Bridge

Chorus

Piano solo and harmony vocals til end of song
