I've been waiting

For this moment for sometime

Anticipating

All the ways you blow my mind

And maybe it's just the way that you do

The way that you do the things that you do

And that's alright, cause

Chorus

You know what we're gonna do tonight (tonight)

We'll be making love my candlelight (tonight)

You know what we're gonna do tonight (tonight)

We can do this till the morning light (tonight)

You know what we're gonna do tonight

Oh let's get physical, oh sexual

Let's get naughty,

Champagne runnin' down your body

Fulfilling our every fantasy

A feeling so good could this be

A love so right

Chorus

Adlib

Chorus w/Adlib to end
