Hey pretty lady, I've been knowing you for a long time

Can we talk, there's something ?? on my mind

I've been thinking, bout you and me baby gettin' it on

We should do it, promise I'll hold you all night long

Chorus

Touch that body, touch that body baby (4x)

Can I take you home, promise there'll be no telephone

Just you and me, take care of you from a to z

You know I got your back, treat you like a queen,

wouldn't know how to act

You know I'm all you need, girl I'm here to please

Chorus

Bridge

Can you see it through, making me a part of you (2x)

Chorus (w/female response)

Touch that body baby (I can do it baby)

Won't you work it baby (I can drive you crazy) (2x)

Chorus

Bridge

To End
