So welcome my twilight  
You have been here before  
So make yourself at home  
And I'll be with you when you go  
Well sugars on the left side  
And sorrows up front  
Although the areas surrounded  
You can have anything you want  
United something changed  
And made me rearrange  
It got nowhere fast somehow  
United something wins  
I've been losing ever since  
It started out  
So welcome my twilight  
Wont you have a seat  
And what will you be having  
Now that you've got everything  
I welcome back something  
United as i love  
But the areas surrounding  
All i am thinking of  
United something changed  
And made me rearrange  
It got nowhere fast somehow  
United something wins  
I've been losing ever since  
It started out  
So welcome my twilight  
Im sorry for the mess  
But feel free to help yourself  
While i am cleaning up the scraps  
So welcome my twilight  
And goodbye daytime  
The area might be closing  
But you'll stay in here a while  
So welcome my twilight...
