There is a name for it
And I know you haven't heard it
Developed theory to rationalise
These feelings, existing in someone's mind

A boy has a stage of wanting
To sleep with his mother and
Killing his father

To this strange complex
There is a flipside
Young girls having the same complex
Called electra complex

Geniuses have it,
Mountain people need it and
Politicians want it

Sinister essence in twisted minds
In a sane mind the question is why?
