

Minus "Liquid Courage"

Visit "[Liquid Courage](#)" on MotoLyrics.com

When you need a little boost to survive the day.
Facing people and socializing, looking for you
premonition.
Just take a big swig of that liquid courage.
Overcast of blue emotions, not knowing what will be.
Thinking that you eill leave nothing behind,
Just take a little sip of that liquid courage.
You have succeeded, job well done
Champagne and lots of fun.
It's a mask that we hide behind
When we go out to have a good time,
Ask yourself if you're interesting sober.
Can you face the day that has plans for you
Or must you have a drink of that medicine bottle.
