Look what's behind me
Very little sex contol
I hope no one finds me
So I can stand here all alone
In this conviction
Of this sentemental written code
It keeps me so,
Stranded broken down on my own
Is this all that I have to do(just when no one hears you)
Take me home and I'll sleep with you
Can what happen to me hurt you(even with you here)
I don't think so
I heard a sound It turned the sky maroon
I shut my eyes and they were glued
Im seeing figures in pictures very rare
Though I'm honestly no where but you still don't care
I'm stranded broken down on my own
Is this all that I have to do (I still don't think that Im
strong enough)
Take me home and I'll sleep with you (to take you home
so I could)
Can what happen to me hurt you
I don't think so'
I was wrong to think you'd lie like that
And hear you say you hate me this way
I didn't think that everything would be so bad
I was wrong
Stranded broken down on my own
Is this all that I have to do
Take me home and I'll sleep with you
Can what happen to me hurt you
I don't think so
